### Donor Advised Funds

A donor-advised fund established at a public charity allows donors to make a charitable contribution and receive immediate tax benefits, while recommending grants from these funds to non-profits over time. ### Endowments

University of Virginia Investment Management Company (UVIMCO) provides investment services to the University and its related foundations. Gifts are managed and invested in accordance with UVIMCO's endowment investment policies. The total return earned in excess of the amount approved annually for payout will be retained in the endowment principal to protect from the effects of inflation and to allow for growth. Alternatively, as allowed by the terms of the endowment agreement, when the payout is not needed for purposes of the fund, the return of payout may be added to the endowment fund principal. In the event the fund does not reach endowment minimum, or the program ceases to exist at UVA, proceeds from the fund will be utilized in an area and manner as closely related as possible to the original intent and purposes for which the fund was established.
